

Benjamin Terry: Artist Statement

plan.
then, measure. make it wonky...
but not too wonky.
draw.
draw it again. again.
cut.

consider the edges.
make it something.
but make it nothing.
fight against the need to control.
be clever. then, be dumb.
maintain convictions. (understand the surface.)

jigsaw as pencil.

make mistakes.
find something new from the past.
analyze and re-evaluate.

let it unravel/be.

create experience.
move them.
far away. up close.
from the side.
 underneath.
standing up. sitting down.
fast and slow.
short and long.

goodbad craft.

diagnose the present.
 predict the future.
understand the past.
(remember. forget.)
